## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with the Applicant's Attorney, Mr. Gregory E. Montone on 07/06/2009. The application has been amended as follows:

In the claim:

Claim 14 in line 2, replace "claim 1" with -----; claim 10 -----

### **Reasons for Allowance**

3. The following is an examiner's statement of reasons for allowance: Claims 10-17 are allowed because the prior art of record does not teach or suggest, singularly or in combination, at least the limitations of base claim 10, wherein "a thickness of said on-chip coil antenna set to 2.6  $\mu\text{m}$  or thicker" in conjunction with "a width of said on-chip coil antenna is set from 2.6  $\mu\text{m}$  to 10  $\mu\text{m}$ " (see last 3 lines of claim 10). The critical

Art Unit: 2892

nature of the above dimensions and their impact on communication distance of the antenna is explained on page 12, lines 8-25 of applicant's specification in conjunction with Figure 11 which plots the associated experimental data. The same limitations are also present in base claims 16 and 17. It is noted that whereas IDS reference Matsuo (US 6,504,227) discloses a structure which appears to be similar (see Figures 3A – 3D), the reference does not teach an antenna as claimed – it only teaches that the coil structure can be a passive device such as a resistor, capacitor or inductor, which makes their modification to an antenna of above claimed dimensions a non-obvious modification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to AJAY K. ARORA whose telephone number is (571)272-8347. The examiner can normally be reached on Mon through Fri, 8:30am to 5:00pm.
